Log & Siding Formula

One of the most respected stains in the country for natural wood siding. Environmentally safe yet uniquely durable. Naturally tough protection.

Deck & Fence Formula

Transparent deck and fence sealer that outlasts the major brands. Hard drying plant oil based yet water clean up, non-flammable, and low VOC.

Crystal Urethane

A fast drying, low VOC interior urethane that doesn't darken wood. Water clean up yet oil and acrylic mix for a durable film. Provides an easy to clean wipeable surface in satin, semi-gloss, or gloss.

Internal Wood Stabilizer

A clear, colorless, non-toxic penetrating sealer that will permanently waterproof wood while greatly extending its life. Safe for projects in contact with food or animals.

Clean & Brite

A non bleach based exterior cleaner that really brightens wood siding, decks, and even concrete and masonry surfaces. Clean & Brite is a single step process that won't harm vegetation.

Strip & Brite

Two step stripper that removes failed oil based finishes or severe graying and weathering on decks, fences, and siding. Strip & Brite will renew the wood's original color.

Internal Concrete Sealer

A non-toxic permanent waterproofer for concrete exposed to moisture. Use ICS to seal foundations, walls and patios forever without any hazardous ingredients.

Masonry Top Sealer

A clear formula for porous masonry surfaces that repels and resists water 50-100% longer than the typical retail concrete sealers. Only 12 grams/litre VOC's!
